

## JTEKT Auto AM Newsletter

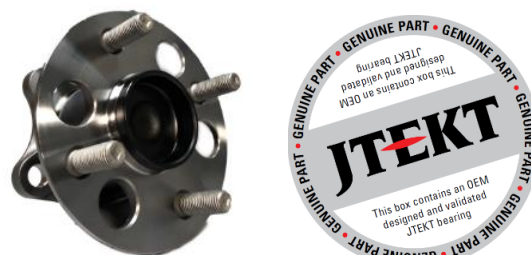

Dear Partner,

Please be informed about following product modification.

### Subject Product

JTEKT is the original (genuine) supplier of Toyota Yaris wheel hub unit OEM number 42450-0D050, which we are also selling in the Aftermarket

### Product modification

This product has recently been slightly modified with no effect on the specified quality or functionality. The modification concerns the replacement of a metal sensor cap by a plastic sensor cap. The part number will not be modified. This modification will be implemented in production as of February 2024.

Old cover (metal)

New cover (plastic)
